(b) if so, the details thereof; and

Closed fertilizer plants

1586. SHRI RAHASBIHARI BARIK: Will the Minister of CHEMICALS & FERTILIZERS be pleased to state:

(a) the number of fertilizer plants closed down in the country and the State-wise locations thereof;

(b) whether Government had a proposal to revive some of these fertilizer plants; and

(c) if so, the steps taken by Government in that direction?

THE MINISTER OF STATE OF THE MINISTRY OF CHEMICAL AND FERTILIZER (SHRI SIS RAM OLA): (a) Production at the following major plants had to be suspended for reasons of safety/feedstock limitation or unviability:—

Sr. No.	Name of the plant	Location	State
1.	Ammonia-Urea plant of FCI, Gorakhpur	Gorakhpur	Uttar Pradesh
2.	Ammonia Sulphate plant of HFC, Namrup-I	Namrup	Assam
3.	Ammonia-Urea plant of HFC, Namrup-II	Namrup	Assam
4.	Urea-1 plant of RCF	Trombay	Maharashtra

(b) and (c) The Government has approved, in principle, the revival packages for FCI and HFC, which inter-alia envisaged the revamp of their operational units, including Namrup-II unit of HFC. The fresh investment required for finalising the rehabilitation of these units could not be tied up. These packages are being reformulated from the stand point of financial institutions. The resumption of production at Namrup-II plant of HFC is contingent on adequate supply of natural gas from ONGC/OIL.

Since the revamp of the Goraphpur unit of FCI was not found to be techno-economically feasible and its revival required setting up of a new plant entailing a fresh investment of Rs. 810 crore at 1994 prices, it has been decided to consider the option of attracting private capital for its rehabilitation, subject to the approval of the BIFR. Of late, KRIBHCO has been vincing an interest in participating in the rehabilitation of this unit.
